

Residential Incentives

Licking Valley RECC offers the following incentives to its members to encourage the selection of energy efficient and environmentally-wise residential equipment. These incentives are good for installations made on or after 1/1/2017.

Heating and Cooling systems

Rebate requests for heating and cooling systems must meet each of the following requirements, plus any additional requirements for that specific type of heating and cooling system.

1. Work and installation must be completed.
2. Completed rebate form, copy of invoice or receipt and AHRI Certificate must be submitted to Licking Valley RECC within 60 days of completed installation.
3. All installations must be in a stick-built home or a manufactured home on a permanent foundation.
4. All units must be the replacement of an electric furnace, ceiling cable, or electric baseboard in an existing home. (Unit being replaced must be at least 2 years old).
5. New Manufactured homes are eligible for this incentive.
6. If approved for this rebate, you are not eligible for the Energy Star HVAC Rebate.

INCENTIVES

AHRI RATING

14 SEER
8.0 HSPF

INCENTIVE TO MEMBER

\$750

≥ 15SEER
